

All the data right before your eyes

BRAINSTORMING

Read the quote and discuss !

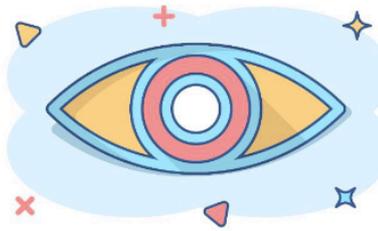

"I love technology, and I love new gadgets. I can no longer figure out how to use any of them, but I love them." Jerry Zucker

Look at the list of wearable technologies and say which of them you have used and what you use them for. If you don't use any wearable technologies, explain why.

- smartwatch
- fitness tracker
- VR headsets
- smart jewellery
- smart glasses
- Bluetooth headsets
- wearable camera
- location tracker

Watch a [video](https://www.youtube.com/shorts/hCWkYF3opVA) [https://www.youtube.com/shorts/hCWkYF3opVA] and answer the questions.

- What's the technology?
- What can you do with this technology?
- Does it make you feel excited or scared seeing such new technology? Why?
- Can you imagine yourself using it? Could it replace your smartphone?
- Is it a good feature that the technology is hands-free and you can see everything right before your eyes? Why/Why not?

Watch a second [video](https://youtu.be/jYpWsluAuRU) [https://youtu.be/jYpWsluAuRU] and say what you think about this application of the technology and if it's useful. Explain your answer.

application:
a specific use that something has

Brainstorm and discuss what applications the smart contact lenses could have in these areas.

- shopping
- languages
- sports
- education
- travelling
- communication
- work
- area of your choice

Think about the future of technology. Discuss which of the superpowers technology has given or is likely to give people in the future. Which of them would you like to have? Explain your answers.

- reading other people's minds
- controlling things with your mind
- having super vision
- having super hearing
- being able to fly
- having super strength
- having X-ray vision
- being invisible
